OKEREKE FAVOUR

FRONTEND DEVELOPER

Tel: +2347038856071 | **LinkedIn** | **Email** | **GitHub** | **Portfolio**

Creative and detail-oriented Front End Developer with two years of experience building interactive, visually appealing, and responsive web applications. Skilled in React, JavaScript, TypeScript, and modern UI frameworks ,with a keen eye for detail and a passion for continuous improvement.

TECHNICAL SKILLS

- **Frontend Stack**: React JS, TailwindCSS, JavaScript, TypeScript, Redux ToolKit, NextJS, ShadcnUI, UI/UX Principles.
- **APIs & Backend Integration**: RESTful APIs & Fetch/Axios, Firebase (Firestore, Authentication, Storage)
- **Version Control**: Git, GitHub

PROFESSIONAL EXPERIENCE

Frontend Developer
MAP SYSTEMS INC. (WInnipeg, Canada)   **Oct 2024 – Aug 2025**

- Worked as part of a cross-functional team to build a scalable ERP platform tailored for medical and healthcare businesses.
- Developed responsive user interfaces for the company's ERP software, translating 20+ Figma design screens into functional web pages, and reducing revision cycles by 30%.
- Created reusable components across the application, thereby improving development time.
- Collaborated with backend developers to integrate RESTful APIs, ensuring seamless data flow and optimized performance.
- Leveraged ShadCN UI components for consistent design systems while customizing styling per brand guidelines.
- Contributed to multiple high-impact modules including contracts, finance, scheduling, and operations, ensuring seamless user experiences and secure, reliable workflows.

Frontend Developer Intern
AINNOV8 Technologies (Lagos, Nigeria)   **Jan 2022 – Jan 2023**

- Designed and developed the company's official website using HTML, CSS and JavaScript.
- Designed the user interface for a music streaming web application, focusing on usability and modern UI/UX principles.
- Collaborated with developers to build a music streaming web application for upcoming artists, enabling them to upload, share, and promote their music globally using React.js
- Crafted web page layouts and implemented animations, boosting user engagement by 25% and creating a more interactive experience.
- Prioritized user experience by writing clean, efficient code, improving development efficiency by 30% and streamlining future enhancements.

PROJECTS

TMDB API Movie App   **Project | GitHub**
- Integrated the TMDB API to fetch and display movie data, including trending movies, search results, and detailed movie information.
- Utilized RTK Query for efficient data fetching, caching, and state management, reducing API calls and improving application performance.
- Implemented features such as movie search, pagination, and dynamic routing to enhance user experience.

- Leveraged ShadCN UI components to create a consistent and visually appealing design system, speeding up development time.
- Ensured type safety and scalability by using TypeScript throughout the project.
  Technologies Used: React, TypeScript, RTK Query, ShadCn UI, TMDB API

PERSONAL BLOG   **[Project](#) | [GitHub](#)**

- Developed a dynamic blog platform using React and Contentful CMS, enabling easy content management and seamless updates.
- Implemented responsive design for an optimal user experience across devices.
- Integrated Contentful's API, efficiently fetching and displaying blog posts with metadata like categories and tags.
- Optimized performance with lazy loading and efficient API calls, reducing page load time.
  Built using **ReactJS**, **TailwindCSS and Contentful CMS**

EDUCATION

- **B.Tech. Computer Science –** Federal University of Technology, Owerri   **Dec, 2023**
